FOR IMMEDIATE RELEASE *(May 16, 2013)*

Joe B. Jackson Parkway extension is underway

MURFREESBORO, Tenn. -- The Joe B. Jackson project connecting Interstate 24 on the East to U.S. 231 South (South Church Street) on the West began April 29. A bridge will be constructed over the CSX Railroad before the road connects with the Stevens Bend Subdivision and Elam Road. The first 600 feet will be completed from South Church Street end of the project on the eastern side.

"We're working on Hwy. 231 South (Shelbyville highway) going east," said Jeff Jayco, Senior Public Works Inspector, "installing silt fencing, clearing trees, and stripping top soil.

"There could also be temporary traffic interruptions between County Farm Road and U.S. 231 South," he added. "Bridge work will continue but there will be no traffic interruptions."
