**FOR IMMEDIATE RELEASE** *(Sept. 6, 2013)*

## **Oil-based collection is Sept. 28**

**MURFREESBORO, Tenn.** – Oil-based paint **only** will be collected and properly disposed of on Sept. 28 from 8 to 11 a.m. at 1140 Haley Road.

This collection is for households only.

Oil-based paint is considered minimally hazardous and is no longer accepted at the annual Household Hazardous Waste Collection. This is in compliance with standards set by the Tennessee Department of Environment and Conservation (TDEC).

Latex paint, also called acrylic paint, will **NOT** be collected at this or any other event since it is not actually a hazardous material.

Instead it is a nuisance waste that should be dried at home before disposing of in the regular trash. If it is not dried before disposal, it could leak and potentially splatter over roads and cars during transport to the landfill. For more information on proper solidification and disposal methods please refer to the county website at [www.rutherfordcountyttn.gov/environmental](http://www.rutherfordcountyttn.gov/environmental) and then click on the “Education” link. You may also call 615.542.4633 for a flyer to be mailed.

Refer to the label to determine if paint is either latex or oil-based. The clean up process for latex paint is just soap and water, but the clean up for oil-based paint, also referred to as alkyd, requires solvents to clean brushes and rollers.

This is the only opportunity in the immediate future to properly dispose of oil-based paint. For more information please call either 615.898.7739 or 615.542.4633 or to request a flyer.

You may also e-mail questions to [mkeisling@rutherfordcountyttn.gov](mailto:mkeisling@rutherfordcountyttn.gov).
