

# HOMESCHOOL PROGRAMS

The Wilderness Station offers a plethora of homeschool programs for your child or group to participate in, as well as a recurring homeschool series each season called Homeschool in the Wilderness. Supplement your homeschooler's science curriculum with this in-depth, 8-month program. A new topic is explored each month through hands-on experiments, live observations, interpretive hikes, and group discoveries. Registration always begins in early September and limited spaces will be available, so registering early is recommended.

- Homeschool in the Wilderness is for children ages 8-10
- This program meets from 9:00 a.m. to 12:00 p.m. on the last Thursday of the month from September to May
- The cost is \$50.00 for the 8-month program
- Send an email to learn more about Homeschool in the Wilderness or schedule your own homeschool program at the Wilderness Station.
