

IMPORTANT NOTICE

**City of Murfreesboro
Water & Sewer Department
Advanced Metering Infrastructure (AMI) Program**

Water Meter Service Notice

The City of Murfreesboro has contracted with US Bronco to replace all water meters. Every water customer will receive a new water meter at **no cost**. This project allows the city to be more efficient and provide improved water usage data to customers.

Your water meter must be replaced. In most cases the replacement can be completed within 30 minutes.

US Bronco will be in your area over the next several weeks replacing meters and installing wireless transmitters/receivers. A sign will be placed in your yard (near your meter or beside your driveway) notifying you that your meter has been replaced.

More information is available at www.murfreesborotn.gov/ami
